

2 Matrigma Test Types

	 Classic Matrigma Test	 Adaptive Matrigma Test
Type of questions	Non-verbal; 3X3 matrix of geometric shapes and symbols related by some rule of logic. You must reveal the logic according to the eight visible elements and choose the correct missing element from the six answer options	Same as the Classic Matrigma Test
Time limit	40 minutes	12 minutes overall, 60-second maximum per question.
Number of questions	35	Unlimited, usually 15-20 questions.
Level of difficulty	Rising level of difficulty with some randomly easier/harder items mixed in	Difficulty changes according to your performance. Harder questions for better performers, easier questions for lower performers.

Matrigma Test Preparation Strategies

Nowadays, when most candidates do prepare to some extent for their tests, not taking a single Matrigma practice test will position you at a disadvantage in comparison to other candidates.
